**Ventura Lambrate** is the internationally renowned platform dedicated to new design trends, cutting edge concepts, emerging talents, innovative design products, successful experimentations and it is the only curated district of the *Salone del Mobile*.

Every edition is committed to present the most interesting expressions of contemporary design, with a particular eye on:

â€¢ emerging trends and talents

â€¢ debuting and established creatives

â€¢ top quality and innovative design labels

â€¢ new processes and production methods

â€¢ conceptual and niche projects

The seventh edition of *Ventura Lambrate* will take place from 12 to 17 April 2016, in the inspiring post-industrial Lambrate district, situated in the north east of **Milan (Italy)** and well connected to the other key spots of *Milan Fuorisalone*.

Completely curated and produced by the Dutch studio **Organisation in Design**, *Ventura Lambrate* is an established circuit characterised by a unique and professional atmosphere where designers, labels, institutions, collectives and other exhibitors can present their latest projects to an international and very interested audience.

**There is no entry fee.**

## Eligibility

This international call is open worldwide to:

â€¢ designers / design studios

• design labels / creative brands

• academies

• design collectives

• cultural institutions / galleries / museums

• companies with exceptionally creative projects and installations

### **Prize**

**Selected exhibitors** will be offered one or more location possibilities basing on the characteristics of their project, their budget possibilities and according to the general concept. The *Ventura Lambrate* circuit will guide visitors through the presentations on show, in order to highlight each of them at best.

One of the main aims of *Ventura Lambrate* is to create **business opportunities** for both exhibitors and visitors.
